PKF FRANCISCLARK

Chartered accountants & business advisers

Industry Expertise - Energy & Sustainability

We recognise the particular challenges of businesses operating in the complex, highly regulated and fast-changing energy markets.

We can provide a full range of services to clients in the Energy & Sustainability industry, including Accounts, Audit, Tax and Corporate Finance.

Within Corporate Finance we also have a specialist team with many years of experience advising on transactions in the UK energy industry. As businesses look to make capital intensive investment decisions in the sector we are able to advise on all aspects of the transaction - available support for renewables (grants and specific government support schemes), fund raising/financing, commercial contracts such as long-term sales contracts to sell power produced and/or monetise government support schemes such as Renewable Obligation Certificates (ROCs), Feed in Tariff (FiTs), the Renewable Heat Incentive (RHI) and Contracts for Difference (CfD's) tax and commercial structuring.
